

# CONNECTED YORKSHIRE

- Connected Yorkshire is a new project that brings together information from GP practices in Bradford with information from other parts of the health system, such as Bradford Teaching Hospitals and Bradford Council. This allows the health system to make sure services are more joined-up, and helps us understand where we can improve care for patients.
- There will be no identifiable information (such as names, date of birth, address) available to the Connected Yorkshire project, so patient confidentiality and privacy will be protected.
